REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: While Kato is not usable as a reference, note that in this case prior art fig 3 is usable to show the wiring board features at issue for which Kato was used. However claim 1 is found allowable since even using the fig 3 teachings it would not have been obvious to redesign the Saito fig 1,4 body 14 to form a portion of it as a "wiring board" . . Part 14 is for use with busbars and there is no valid suggestion in the prior art to use it for wiring. Terms "wiring circuit board", read in light of disclosure, are seen to require a circuit structure like that of application fig 3 at 53 with wire 61 and to define over use of sockets as in Saito fig 4 at 14a.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication should be directed to Neil Abrams at telephone number 571-272-2089.
